Brass Charms
and Embellishments

Thank you for your interest in By Jupiter! Inc. We have been selling charms and findings since 1985. Our product line is ever-increasing as we strive to find just the items our customers are looking for. We generally add one supplement each year that shows all our new items. However, we will try to find anything our customers are looking for, so please call us. All our charms are shown actual size, and available in three finishes; raw brass, antique gold and antique silver. We will do special orders in other finishes if the quantity ordered meets certain requirements. It is our desire to provide our customers with the friendliest and most efficient service possible.

TERMS AND CONDITIONS

You may order by phone, fax, mail or e-mail or on our web site. If ordering by phone, please have your order prepared. However you prefer to order, we need the item number, desired finish (AG,AS, BR) and quantity.

We use UPS and the US Postal Service for shipping. We choose the most appropriate means to keep your costs down and protect the merchandise. We try to have our orders on their way within 48 hours.

Payment can be made via VISA, MASTER CARD, DISCOVER, or C.O.D. Net 30 Days for established accounts. All International accounts must use a credit card. Invoices are sent with the product. We would much rather be filling your orders than sitting at the desk getting statements in the mail.

We try to maintain a minimum order of \$25. We have been known to bend on this, however, keep in mind that shipping costs can exceed the value of these items. That is why we set this amount. We ask your cooperation in this matter, but will always help you out of a bind. Finishes cannot be mixed to meet quantity price breaks, we have price breaks at dozen and gross amounts.

Please be aware that slight color variations may appear in the raw brass as well as in the plated finishes. We have limited control in this matter but our manufactures and platters know what we want and work hard to provide the consistency that will keep us all happy.

RETURNS: As you might well imagine, we do not like returns. If we make a mistake, (I can't imagine) of course we will accept the items in return, credit your account along with the return postage amount. However, please notify us of the mistake and return within 5 days of receipt of order. We do not accept returns for any other reason. The only way we can continue to keep prices down and service wonderful is to touch these little things as few times as possible. Please be careful in ordering. We want you to love everything you order and avoid this headache.

We hate back orders as much as you do. However, until we discover a method of knowing what the next trend is going to be, we will have back orders. These will be noted on your invoice. If only one or two items are not available, we may request that you reorder these items with your next order. We do charge postage on back orders.

PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.

This catalog is made in a PDF file. Scroll down through the pages to view the charms.
You may print any or all of the catalog. A separate price list will have been e-mailed to you.

FINISHES

A. CHARMS- raw brass charms are a bit oily from the manufacturing process. Warm soapy water or alcohol will remove any residue, then, dry with a towel. If you are packaging the embellishments in needlework, it might be advisable to put this information in your chart instructions.

B. RAW BRASS- This is brass that is unfinished. It will tarnish over time. This can be to different degrees. Tarnishing can be avoided by spraying with a clear acrylic or using clear nail polish. Some variations may appear in raw brass finish.

C. ANTIQUE GOLD- Brass that has been oxidized to give an antique look. The darkened areas show up particularly in the recessed areas.

D. ANTIQUE SILVER- Brass that is nickel plated and antiqued.

NOTES:

1. Antique gold and antique silver finishes will not tarnish.
2. Some color variations may appear in antique finishes. To lighten up antique finish you may try using acetone (finger nail polish remover).
3. There are so many great new products on the market that can be used to add color to raw brass. There are paints, markers, patinas, etc. Check your favorite craft store and experiment!
4. If gluing charms use E-6000 or similar.
